Bittel USA Named Preferred Vendor for Hilton Hotels
Largest guestroom telephone manufacturer in the world gets nod from Hilton

(Roseville, CA) – April 30, 2008 - From its high-end Executive Series to the affordable Budget Select Series, Bittel has installed over six million guestroom phones throughout the world. The ability to adapt and provide telephone solutions for every hospitality need has earned Bittel USA a Preferred Vendor rating from Hilton Hotels Corporation.

According to representatives from Hilton, the Bittel USA guestroom phones received outstanding ratings and endorsements from guests and staff during a six-month testing period at a Homewood Suites property in Tennessee.

Bittel's unique feature-rich telephones stand out in the hospitality industry because of special patented innovations including the *No-Hook Hook Switch*, which features no mechanical components, enhancing the maintenance free and functional performance of the phone; and the *Handset Dial-Pad*, which provides another level of comfort and convenience for guests.

“Bittel USA is now a leading provider of guestroom telephones, and I am confident that our quality and service far outweighs that of the competition,” said Richard Reyer, VP of Sales for Bittel USA. “We are honored to be partnered with such a distinctive and well respected hotel company.”

Please visit **Bittel USA** at the **2008 Hilton Focused Service Owners Tradeshow**,
Hilton Anatole, Dallas, Texas - May 6-7, 2008.
